**Toll road is named
S. Bay Expressway**

The south portion of state Route 125 has been named the South Bay Expressway.

The developer of the 10-mile toll road, which runs from state Route 54 in Spring Valley to state Route 905 in Otay Mesa, announced the name and a new blue and orange logo yesterday. The road is scheduled to open in fall 2006.

The name "tells you where it is and how it acts," said Greg Hulsizer, chief executive officer of California Transportation Ventures, the road's builder.

Company officials have been meeting with community groups and residents for months to discuss the toll road. The road's new Web site is www.southbayexpressway.com.
